

AQUACULTURE INNOVATION Summit

Building a sustainable and profitable aquaculture industry through investment and partnerships

Overview

Aquaculture is one of the fastest-growing food sectors in the world. The Aquaculture Innovation Summit 2021 aims to aid this growth and maintain the industry's success by getting key players together to discuss solutions to challenges in nutrition, health, and digital. This year's summit centres around innovative start-ups around those emerging technologies to solve this issue and getting them to market.

Topics covered by panels include:

- ✓ The Progression Of Land-Based Aquaculture And What It Means For The Wider Industry
- ✓ Accessing Investment: Exploring Different Models And Investor Drives
- ✓ Digital Transformation To Optimise Aquaculture
- ✓ Executing The Next Steps To Guarantee The Future Of Sustainable, Functional Feeds
- ✓ Exploring The Future of Health and Genetics To Improve Performance And Welfare
- ✓ Proving Aquaculture's Sustainability Credentials To Battle The Rise Of The Alternative Protein Industry
